## **BEST AVAILABLE IMAGES**

Defective images within this document are accurate representations of the original documents submitted by the applicant.

Defects in the images may include (but are not limited to):

- BLACK BORDERS
- TEXT CUT OFF AT TOP, BOTTOM OR SIDES
- FADED TEXT
- ILLEGIBLE TEXT
- SKEWED/SLANTED IMAGES
- COLORED PHOTOS
- BLACK OR VERY BLACK AND WHITE DARK PHOTOS
- GRAY SCALE DOCUMENTS

**IMAGES ARE BEST AVAILABLE COPY.**

**As rescanning documents *will not* correct images,  
please do not report the images to the  
Image Problem Mailbox.**

IN THE CLAIMS

Applicant notes that claims 1, 13 and 25 are not amended to overcome prior art but to be written more clearly. The amendments made to claims 1, 13 and 25 are not narrowing in scope and therefore no prosecution history estoppel arises from the amendment to claims 1, 13 and 25. *Festo Corp v. Shoketsu Kinzoku Kogyo Kabushiki Co.*, 62 U.S.P.Q.2d 1705, 1711-1712 (2002); 56 U.S.P.Q.2d 1865, 1870 (Fed. Cir. 2000). Further, the amendments made to claims 1, 13 and 25 were not made for a substantial reason related to patentability and therefore no prosecution history estoppel arises from such amendments. *See Festo Corp.*, 62 U.S.P.Q.2d 1705 at 1707 (2002); *Warner-Jenkinson Co. v. Hilton Davis Chemical Co.*, 41 U.S.P.Q.2d 1865, 1873 (1997).

1 Claim 1 (currently amended) A method for controlling information gathered by data  
 2 collection agencies in an electronic transaction comprising the steps of:  
 3 selecting a persona facet by a user, wherein said persona facet selected  
 4 comprises a user selectable information selected by the user to [that will] be exposed  
 5 in said electronic transaction;  
 6 connecting to a web site by a web browser;  
 7 sending said selected persona facet to said web site by said web browser  
 8 during said electronic transaction;  
 9 receiving information about said user stored in a database from said web site  
 10 if said web site recognizes said persona facet; and  
 11 updating said information about said user stored in said database.

1 Claim 2 (original) The method as recited in claim 1 further comprising the step of:  
 2 comparing said user selectable information in said persona facet with said  
 3 received information from said web site.

1 Claim 3 (original) The method as recited in claim 2, wherein said comparing said  
 2 user selectable information in said persona facet with said received information from

3 said web site comprises the step of parsing said information received from said web  
4 site.

1 Claim 4 (original) The method as recited in claim 1, wherein said web site  
2 determines if said web site recognizes said persona facet by searching a database for  
3 said persona facet.

1 Claim 5 (original) The method as recited in claim 2, wherein if there are differences  
2 between said information received from said web site and said user selectable  
3 information in said persona facet from said comparison then said information about  
4 said user stored in said database is updated.

1 Claim 6 (original) The method as recited in claim 1 further comprising the step of:  
2 completing said electronic transaction.

1 Claim 7 (original) The method as recited in claim 1, wherein said user selectable  
2 information comprises at least one of the following: user name, electronic mail  
3 address, public key, private key, unique key, payment method, and customer resource  
4 data.

1 Claim 8 (original) The method as recited in claim 6, wherein said user selectable  
2 information comprises a particular payment method.

1 Claim 9 (original) The method as recited in claim 8, wherein said electronic  
2 transaction is completed by initiating a method call to said web site from said web  
3 browser to expose said particular payment method.

1 Claim 10 (original) The method as recited in claim 1 further comprising the step of:  
2 determining whether said selected persona facet is recognized by said web  
3 site, wherein if said web site does not recognize said selected persona facet then said  
4 user selectable information is stored in cookie data.

1 Claim 11 (original) The method as recited in claim 1 further comprising the step of:  
2 determining whether said selected persona facet is recognized by said web  
3 site, wherein if said web site recognizes said selected persona facet then said user  
4 requests from said web site to send said information about said user stored in said  
5 database.

1 Claim 12 (original) The method as recited in claim 11, wherein if said web site does  
2 not send said information about said user stored in said database then the method  
3 further comprises the step of:  
4 storing said user selectable information in cookie data.

1 Claim 13 (currently amended) A computer program product having computer  
2 readable medium having computer program logic recorded thereon for controlling  
3 information gathered by data collection agencies in an electronic transaction,  
4 comprising:  
5 programming operable for selecting a persona facet by a user, wherein said  
6 persona facet selected comprises a user selectable information selected by the user to  
7 [that will] be exposed in said electronic transaction;  
8 programming operable for connecting to a web site by a web browser;  
9 programming operable for sending said selected persona facet to said web site  
10 by said web browser during said electronic transaction;  
11 programming operable for receiving information about said user stored in a  
12 database from said web site if said web site recognizes said persona facet; and  
13 programming operable for updating said information about said user stored in  
14 said database.

1 Claim 14 (original) The computer program product as recited in claim 13 further  
2 comprises:  
3 programming operable for comparing said user selectable information in said  
4 persona facet with said received information from said web site.

1 Claim 15 (original) The computer program product as recited in claim 14, wherein  
2 said comparing said user selectable information in said persona facet with said  
3 received information from said web site comprises:  
4 programming operable for parsing said information received from said web  
5 site.

1 Claim 16 (original) The computer program product as recited in claim 13, wherein  
2 said web site determines if said web site recognizes said persona facet by searching a  
3 database for said persona facet.

1 Claim 17 (original) The computer program product as recited in claim 14, wherein if  
2 there are differences between said information received from said web site and said  
3 user selectable information in said persona facet from said comparison then said  
4 information about said user stored in said database is updated.

1 Claim 18 (original) The computer program product as recited in claim 13 further  
2 comprises:  
3 programming operable for completing said electronic transaction.

1 Claim 19 (original) The computer program product as recited in claim 13, wherein  
2 said user selectable information comprises at least one of the following: user name,  
3 electronic mail address, public key, private key, unique key, payment method, and  
4 customer resource data.

1 Claim 20 (original) The computer program product as recited in claim 18, wherein  
2 said user selectable information comprises a particular payment method.

1 Claim 21 (original) The computer program product as recited in claim 20, wherein  
2 said electronic transaction is completed by initiating a method call to said web site  
3 from said web browser to expose said particular payment method.

1 Claim 22 (original) The computer program product as recited in claim 13 further  
2 comprises:  
3 programming operable for determining whether said selected persona facet is  
4 recognized by said web site, wherein if said web site does not recognize said selected  
5 persona facet then said user selectable information is stored in cookie data.

1 Claim 23 (original) The computer program product as recited in claim 13 further  
2 comprises:  
3 programming operable for determining whether said selected persona facet is  
4 recognized by said web site, wherein if said web site recognizes said selected persona  
5 facet then said user requests from said web site to send said information about said  
6 user stored in said database.

1 Claim 24 (original) The computer program product as recited in claim 23, wherein if  
2 said web site does not send said information about said user stored in said database  
3 then the computer program product further comprises:  
4 programming operable for storing said user selectable information in cookie  
5 data.

1 Claim 25 (currently amended) A system comprising:  
2 [a web server; and  
3 a client coupled to said web server, wherein said client comprises:]  
4 a processor;  
5 a memory unit operable for storing a computer program operable for  
6 controlling information gathered by data collection agencies in an electronic  
7 transaction; and  
8 a bus system coupling the processor to the memory, wherein the computer  
9 program is operable for performing the following programming steps:  
10 selecting a persona facet by a user, wherein said persona facet selected  
11 comprises a user selectable information selected by the user to [that will] be  
12 exposed in said electronic transaction;

13 connecting to a web site by a web browser;  
14 sending said selected persona facet to said web site by said web  
15 browser during said electronic transaction;  
16 receiving information about said user stored in a database from said  
17 web site if said web site recognizes said persona facet; and  
18 updating said information about said user stored in said database.

1 Claim 26 (original) The system as recited in claim 25, wherein the computer program  
2 is further operable to perform the programming step:

3 comparing said user selectable information in said persona facet with said  
4 received information from said web site.

1 Claim 27 (original) The system as recited in claim 26, wherein said comparing said  
2 user selectable information in said persona facet with said received information from  
3 said web site comprises the programming step:

4 parsing said information received from said web site.

1 Claim 28 (original) The system as recited in claim 25, wherein said web site  
2 determines if said web site recognizes said persona facet by searching a database for  
3 said persona facet.

1 Claim 29 (original) The system as recited in claim 26, wherein if there are  
2 differences between said information received from said web site and said user  
3 selectable information in said persona facet from said comparison then said  
4 information about said user stored in said database is updated.

1 Claim 30 (original) The system as recited in claim 25, wherein the computer program  
2 product is further operable to perform the programming step:  
3 completing said electronic transaction.

1 Claim 31 (original) The system as recited in claim 25, wherein said user selectable  
2 information comprises at least one of the following: user name, electronic mail  
3 address, public key, private key, unique key, payment method, and customer resource  
4 data.

1 Claim 32 (original) The system as recited in claim 30, wherein said user selectable  
2 information comprises a particular payment method.

1 Claim 33 (original) The system as recited in claim 32, wherein said electronic  
2 transaction is completed by initiating a method call to said web site from said web  
3 browser to expose said particular payment method.

1 Claim 34 (original) The system as recited in claim 25, wherein the computer program  
2 is further operable to perform the programming step:  
3 determining whether said selected persona facet is recognized by said web  
4 site, wherein if said web site does not recognize said selected persona facet then said  
5 user selectable information is stored in cookie data.

1 Claim 35 (original) The system as recited in claim 25, wherein the computer program  
2 is further operable to perform the programming step:  
3 determining whether said selected persona facet is recognized by said web  
4 site, wherein if said web site recognizes said selected persona facet then said user  
5 requests from said web site to send said information about said user stored in said  
6 database.

1 Claim 36 (original) The system as recited in claim 35, wherein if said web site does  
2 not send said information about said user stored in said database then the computer  
3 program is further operable to perform the programming step:  
4 storing said user selectable information in cookie data.
